EDUCATION

- Sanskriti University** Mathura, India
Bachelor of Technology - Computer Science & Engineering; CGPA: 7.81
2022 - 2026

SKILLS SUMMARY

- Languages:** JAVA, Python
- Frameworks:** Spring Boot, FastAPI
- Tools:** Git, GitHub, Linux, Postman
- Database:** MySQL, MongoDB
- Cloud Platform:** AWS, Google Cloud, MongoDB Atlas, Docker
- Core CS Concepts:** Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

EXPERIENCE

- Software Development Intern - Backend Engineer** Remote
Bluestock Fintech Jun 2025 - Jul 2025
 - Portfolio Backend and Security:** Engineered scalable REST APIs with caching, parallel data aggregation, and secure JWT authentication (rotation + reuse detection) to cut latency and prevent replay attacks.
 - Trading Workflow:** Built end-to-end buy/sell/update trading flows with weighted pricing logic and audit logging for compliance.
 - CSV Import and API Hardening:** Developed a streaming CSV import pipeline and strengthened API security using rate limiting, Helmet, and structured error handling; collaborated in a 4-member team with Git-based reviews.
- Software Development Intern** Hybrid
QSpiders Jun 2024 - Jan 2025
 - Java Certification (ID: 2534):** Completed an intensive hands-on certification in project-based coding, debugging, and Java application development using OOP principles.
 - Responsive Web Interfaces:** Developed accessible, standards-compliant UIs with HTML5, CSS3, and JavaScript, incorporating dynamic DOM manipulation and third-party API integrations.
 - Prototype Testing / Deployment :** Tested and deployed functional prototypes, ensuring cross-platform compatibility and semantic accessibility standards.

PROJECTS

- DDoS Protection System**
FITT-IIT Delhi / TiE-U-IIT Kanpur / Innovative Bharat 3.0
 - DDoS-Resilient Architecture:** Designed a DDoS-resilient architecture using CDNs, WAFs, and load balancers to mitigate Layer 3-7 attacks and protect application logic.
 - Real-Time Threat Monitoring:** Deployed real-time monitoring achieving a 90% detection rate and 98% precision, with 90% automated threat filtration.
 - Secure Backend Services:** Built secure Python/Node.js backend services with DNSSEC and end-to-end encryption.
- Secure Data Wiping System for IT Asset Recycling**
Smart India Hackathon
 - NIST-Compliant Data Wiping Tool:** Built a Python-based data wiping solution compliant with NIST SP 800-88 across Windows, Linux, and Android, achieving an 85% success rate using AI-driven hidden storage detection.
 - Blockchain-Verified Certification App:** Developed a FastAPI/React application with cryptographic and blockchain verification for audit-compliant certification.
 - Dockerized Deployment System:** Containerized the solution with Docker to support both online and offline (USB-based) deployment modes.

ACHIEVEMENT/LEADERSHIP

- Hackathon & Competition Awards:** Won INR 49,000 combined: Rank 1, Innovative Bharat 3.0 (INR 31,000); Rank 2, TiE-U Global UP (INR 15,000); Institute Rank 2, Spark Techfest (INR 3,000).
- Top 5 National Selection / FITT, IIT Delhi:** Top 5 nationally among 13+ Innovative Bharat winners; led BioSpark Bootcamp cohort at FITT, IIT Delhi, and pitched venture to investors.
- Team Lead / TiE-U, IIT Kanpur:** Led a winning team in designing and pitching an AI-powered SD-WAN DDoS protection SaaS, validating product-market fit with banking/NBFC clients.

VOLUNTEER EXPERIENCE

- Community Lead at Developer Student Club** University Level
Conducted online and offline technical & soft-skills training impacting over 400 students. Jan 2024 - Jan 2025
- Event Organizer at Developers Student Club**
Organized events, conducted workshops and delivered workshops reaching over 500 developers. Aug 2023 - Dec 2024
